PUMP AIR SUPPLY KIT

SIMPLIFY YOUR INSTALLATION PROCESS

Get a professional pump installation every time – quickly and easily. Eliminate pump installation delays with this complete, pre-packaged air supply kit.

FEATURES

Ready to install

BENEFITS

- Air Supply Kit makes installation easy.
- Eliminates lost time with complete pre-packaged set-up
- Provides uniform installation every time
- Eliminates incorrectly chosen or inappropriate connection parts
- Eliminates delay for incidental parts

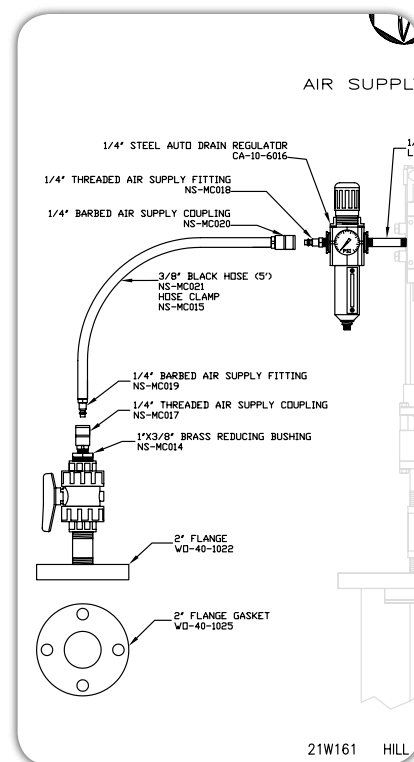

Universal Air Supply Kit

- Fits all pneumatic pumps
- Simplifies installation
- Saves contractor installation time
- Standard parts and plumbing threads make follow-up changes easy
- HDPE blind flange attachment fits all landfill two-inch air supply header lines

Complete Kit

Complete kit includes:

- Flange
- Air supply 3/4" mnpt x 1/4" fnpt reducing bushing
- Push to connect fitting for 3/8" OD hose
- 1/4" hose barb x air quick connect nipple
- Hose clamp
- Valve – Air supply kit for use with 2" HDPE flange includes:
 - Steel auto drain regulator
 - PVC ball valve
 - 5 feet of 3/8" hose
 - 2" flange and gasket
 - Hose
 - Filter/regulator
 - Fittings

ABOUT BLACKHAWK TECHNOLOGY COMPANY

Founded in 1990, Blackhawk Technology Company manufactures the industry's most comprehensive line of electric, pneumatic, and windmill top-head-drive positive displacement piston pumps designed to withstand the harshest outdoor environments and the most rigorous downhole pumping conditions. The Company originated landfill and groundwater remediation piston pumps, and no one offers more real world experience in landfills, petrochemical facilities, and remediation sites.
